Cyber, Physical or Insider Threat?

All of the above?
**BLURRED BOUNDARIES CLEAR RISKS**

Through the blurring of boundaries, security and risk aspects become more diffuse, more complex, and unpredictable. This event is designed to help security professionals know how risks can be assessed and acted on effectively – not in disclaimers or legal arrangements but by having the actual risk owner and users make informed decisions.

Eduard Emde, CPP, Conference Chair, ASIS Europe 2018

**WHAT’S ON?**

**WEDNESDAY 18 APRIL**

**evening**
- Welcome Party

**THURSDAY 19 APRIL**

**CREATE YOUR LEARNING PATH AT ASIS EUROPE 2018**

- I need to understand and prioritise risks and formulate strategies to secure my organisation
- I focus on finding the latest innovations to mitigate security risks
- I need help identifying skills + paths to advance my career
- I need practical training on specific topics

* rates exclude VAT. Complete pricing details on www.asiseurope.org
professionals, and particularly security businesses, consumers, shareholders and other organisations? How quickly will these changes take place? What are the benefits for big data, automation and artificial intelligence? Will you be adding robots and drones to your security team? Will you delegate tasks to Artificial Intelligence? What are the options for different sizes and types of organisations? What will be in-house and what will be outsourced? Chaired by Florian Haacke, CSO / Head of Group Security, Innogy, DE

CONFERENCE TRAINING

Training sessions use scenario based learning to address key challenges for security professionals. Experts will coach attendees through planning and incident response approaches in 2-hour workshops. The Conference Training track is geared towards coaching established professionals in management roles. Participation is included in the conference delegate fee (space limitations may apply onsite).

TRAINING 1 Fundamentals of Cyber-Physical Security
TRAINING 2 How to set up a Travel Risk Management Programme
TRAINING 3 Crisis Management Training – We got your data, pay now and we’ll release it! Managing data extortion crises
TRAINING 4 Cyber Security Workshop – Cyber Crime Simulation Game
TRAINING 5 Soft Targets Protection

INSIDER THREAT CASE STUDY

SNOWDEN’S CRITICAL PATHWAY: From Intelligence Contractor to Unleashing an Avalanche of Media Leaks
Elaine van Du, CSO and Founder, Signpost Six, NL

ESRM IN FOCUS

A four-part double session framing the need for ESRM approaches and how to implement them.

1. A CYBER-PHYSICAL FUTURE
   – Security Implications
   – Scott Klososky, Founding Partner, Future Point of View, US
2. ESRM – A MANAGEMENT PHILOSOPHY
3. ESRM CASE STUDY: From Vision to Reality
   – Developing and Embedding a Cross-Functional Strategy
   – Barrie Millet, Head of Group Security, Wesleyan Group, UK
4. ADAPTING AND IMPROVING: Understanding and Measuring Business Resilience
   – Laura Poderys, Business Continuity Manager, Group Physical Security, Danske Bank, DK
